Talking and Breathing May Spread The virus

People resistant to social distancing may reconsider that thought after a prestigious scientific panel told the White House Wednesday night that research shows the coronavirus can be spread not just by sneezes or coughs, but also just by talking, or possibly even just breathing.

“While the current [coronavirus] specific research is limited, the results of available studies are consistent with aerosolization of virus from normal breathing,” according to the letter, written by Dr. Harvey Fineberg, chairman of a committee with the National Academy

of Sciences.

Fineberg said that he will start wearing a mask when he goes to the grocery store.

Several other experts are now talking about wearing masks every time you interact with the public during essential visits to places like your local grocery store or pharmacy.

Considering that people with no coronavirus symptoms at all can carry the virus, a simple conversation with someone like that could spread the virus to you if you are less than six feet apart.

Met-Ed Suspends Shut-offs

Effective immediately, Met-Ed is temporarily discontinuing power shutoffs for customers who are past due on their electric bills. FirstEnergy, Met-Ed's parent company, will continue to monitor the coronavirus response situation and adjust the shutoff policy in the future as circumstances develop.

Met-Ed encourages customers who are having difficulty paying their electric bill to contact its customer service department at 1-800-545-7741 to discuss customer assistance programs.

PPL Waives Late Fees

PPL Electric Utilities has waived all late payment fees and announced it will not cut service. PPL has several programs available to help customers having a hard time paying their bills: OnTrack offers a lower, fixed monthly bill and debt forgiveness for customers who make 150 percent of the poverty level or less. CARES can help customers experiencing a temporary hardship. Calling [1-800-358-6623](tel:1-800-358-6623)

Weona Park Book

A Centennial book is being written to commemorate the 100th Anniversary of Weona Park in Pen Argyl.

Anyone with fond memories or interesting stories should send them to Walt Cole at wrcole3@gmail.com This would include any information from your parents or grandparents. Perhaps a grandparent or great-grandparent helped to build the park, or worked on a WPA project during the Depression. Perhaps you worked at the park, were a life guard or had an interesting experience.

Stories about sporting events, swimming, or any activities would be of interest. They are also interested in pictures of family reunions, church gatherings or other organizations having picnics at the park. They are also looking for pictures of the clay tennis courts, the old miniature golf course, the band shell and events at the athletic field. Please check out those old photo albums for memories to share.

Celtic Cultural Scholarships

The Celtic Cultural Alliance (CCA) has announced that several scholarships will be awarded this year to students pursuing the study of Celtic dance, music, or art.

Please contact Marcie Mulligan, mmulligan@celticfest.org, for information related to either scholarship.

Home Heating Assistance

LIHEAP is a federally funded program that helps individuals and families pay their heating bills through home heating energy assistance grants. It also provides crisis grants to help in the event of an emergency or if a resident is in danger of losing his or her heat due to broken equipment, lack of fuel or termination of utility service.

The income eligibility guidelines for LIHEAP are set at 150% of the federal poverty income level. For example, the income limit for an individual is \$18,735; for a couple, the limit is \$25,365; and for a family of four, it is \$38,625.

Residents may apply for LIHEAP online or by contacting the County Assistance Office in their county of residence.

Don't Just Push Germs Around, Eliminate Them

Many cleaning tools give the impression that they are killing germs and cleaning your home when in reality they are simply spreading germs to other more hidden areas of your home. The only way to avoid this is by sanitizing these cleaning tools, such as mops, dusters, and dishrags between uses or they will continue to spread bacteria around your house. This issue often goes unnoticed, as some of the most sparkling clean homes can be saturated with bacteria while other

Fire, Rescue, & EMS Grant

The registration window for the COVID-19 Fire, Rescue, and EMS Grant is open through August 7, 2020 at 4:00 p.m.

The purpose of this grant is to provide some much needed financial assistance to first responders who have found it difficult to keep their operations running due to COVID-19.

As stated in Act 26, the money must be used for operational and equipment expenses.

Grant Registration

To register, carefully review the grant guidance (PDF), then access the grant portal by following these instructions (PDF). [Click Here](#)

You will need the following information to complete the registration in order to receive these funds. You may already have these numbers, but if you do not, please see the link above to acquire the necessary numbers in preparation for this registration.

How to clean your phone

First and foremost, you will want to consult the website for the manufacturer of your phone or carrying case for any specific instructions that they might have in order to avoid damaging your device or case.

Many manufacturers, including Apple, have provided recommendations due to the COVID-19 pandemic.

While specific instructions may vary depending on your device, Apple advises the following :

- **Use only a soft, lint-free cloth.**
- **Avoid excessive wiping.**
- **Unplug all power sources, devices, and cables.**
- **Keep liquids away from your device.**
- **Don't allow moisture to get into any openings.**
- **Avoid aerosol sprays, bleaches, and abrasives.**
- **Avoid spraying cleaners directly onto your device.**
- **Apple is recommending the use of 70 percent isopropyl alcohol wipes or Clorox Disinfecting Wipes to wipe down any hard, nonporous surfaces.**

However, they say you should avoid using them on leather or fabric to prevent damage. According to Dr. Donald W. Schaffner, extension specialist in food science and distinguished professor at Rutgers University, these are “fairly gentle disinfectants.”

However, you should avoid using chlorine bleach, according to Schaffner. This could damage your phone. Westenberg further suggested that keeping your phone in a sealed case will make it easier to wipe it down with disinfectant wipes.

Bangor Slater Face Masks

The BAHS Alumni Association is selling face masks with the Slater logo for \$9.98 each. There are three Slater logos to choose from. See below.

These masks have two breathable cotton/poly layers underneath making for a triple layer mask. There is also an inside pocket for a filter. Ear straps are adjustable and an additional head strap is available for purchase if you do not want to use the ear straps.

The masks come in Small, which fits most youth ages 1-6, Medium, which fits older children through small adults, and Large, which fits most teenagers and adults.

The masks can be bought online directly from the vendor and will be shipped to your address for a \$4.95 shipping fee, which covers all masks coming to the same address.

Visit this website to order and pay online: <https://basdmask2020.itemorder.com/> The website will close on July 26. When it is closed, the masks will be produced and sent directly to you in approximately four weeks. Proceeds go to the BAHS Alumni Association and will be used for their scholarship and awards programs.

Quarry Holes Filled With Water and Hidden Dangers

During hot weather some quarry lakes look inviting, but there many hidden dangers: deep water, cold water, submerged abandoned machinery and car wrecks, underwater ledges and recesses, hidden currents and tunnels, submerged plants, dead animals and excrement, rubbish, pollution and dangerous algae.

The greatest danger is cold water which is much colder than rivers, lakes and the sea. Many quarries are so deep that they are fed with water from underground springs or aquifers. This water originates deep within the ground, and is extremely cold. You are likely to become exhausted much more quickly than you would think. In addition to this, a sudden plunge into cold water could cause your body to go into "shock".
