## Parents Should Keep Button Batteries and Small Magnets Away from Kids

Lehigh Valley, Pa. (Dec. 27, 2021) – As families across the region prepare to celebrate the holiday season, experts at Lehigh Valley Health Network (LVHN) are urging parents and caregivers to keep potentially life-threatening toy parts out of the reach of young children. Button batteries and rare earth magnets are also found in common household items.

“Both button batteries and rare earth magnets are small and shiny – a dangerous combination that can tempt a child to put them in their mouth,” says pediatric hospitalist Richard Mazzaccaro, MD, with Lehigh Valley Reilly Children’s Hospital. “While parents might not know the moment their child swallows them, as soon as they notice something is wrong or these items are missing, they should go right to the emergency room.”

In 2019, roughly 1,800 children under age 6 in the U.S. ingested a button battery, according to National Capital Poison Center. Button batteries, small, nickel-shaped batteries found in key fobs, toys, remote controls, watches and other devices, can cause severe damage if swallowed.

## Pen Argyl Boys Defeat Sussex 46-39

The Pen Argyl Green Knights boys basketball team broke a six-game losing streak defeating Sussex Tech 46-39 in the Belvidere Basketball tourney played Monday afternoon.

The Knights, playing without leading scorer Damian Tyminski, increased a 20-15 halftime lead to 33-20 going into the final period. Tech’s Jesse Griner, however, erupted for 14 of his game-high 16 points in the final period closing the gap down the stretch.

Pen Argyl sophomore Chase Kennedy, playing in his first game of the year, made five of six crucial free throws in the final period while Trowne Irwin-Hill and Christian Hershey also made a pair from the free throw line as Pen Argyl hit nine of 10 free

throws in the final period to fend off a Sussex rally.

Overall, Pen Argyl shot 73% from line while senior Jillian Pysher and Hershey, a junior, each scored in double figures with 11 points each.

Hershey, incidentally, increased his season total of three-pointers to 15 which is tops among the Slate Belt boys and girls teams.

The Knights play North Warren 5pm tonight at Belvidere for the tournament championship.

# Pledge Of Allegiance Day

Pledge of Allegiance Day on December 28th commemorates the date Congress adopted the “The Pledge” into the United States Flag Code.

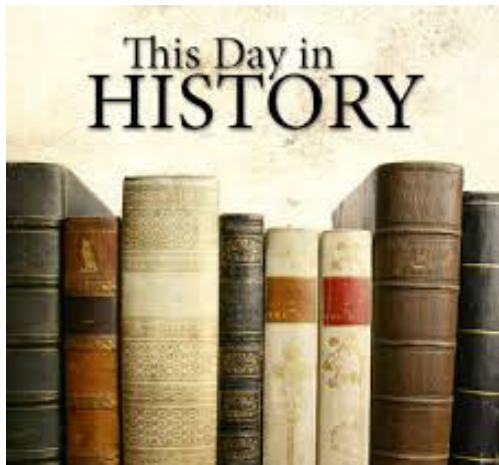

Congress formally gave recognition for the Pledge of Allegiance on December 28, 1945. Francis Bellamy receives credit for writing the Pledge of Allegiance. The Youth’s Companion, a magazine for young people, first published it anonymously on September 8, 1892, under the title “The Pledge.” It was written in celebration of the 400th anniversary of the discovery of America.

In 1923 and 1924, the National Flag Conference inserted text of the pledge into legislation.

Though modifications were made, the pledge remained nearly the same. At the same time, the conference didn’t designate it as the official pledge. On Flag Day in 1954, Congress added the words “under God” in response to the anti-Communist opinion sweeping the country during the Cold War.

## First Commercial Movie Screened

On December 28, 1895, the world’s first commercial movie screening takes place at the Grand Cafe in Paris. The film was made by Louis and Auguste Lumiere, two French brothers who developed a camera-projector called the Cinematographe. The Lumiere brothers unveiled their invention to the public in March 1895 with a brief film showing workers leaving the Lumiere factory. On December 28, the entrepreneurial siblings screened a series of short scenes from everyday French life and charged admission for the first time.

Movie technology has its roots in the early 1830s, when Joseph Plateau of Belgium and Simon Stampfer of Austria simultaneously developed a device called the phenakistoscope, which incorporated a spinning disc with slots through which a series of drawings could be viewed, creating the effect of a single moving image.

## QUESTION OF THE DAY

**In which type of matter are particles packed together the tightest?**  
**And the answer: solid.**

In a solid, particles are tightly packed, usually in a regular pattern, which helps the solid retain a fixed volume and shape. In contrast, particles in liquids and gasses are farther apart and flow more easily, with the liquid and gas taking on the shape of the container they’re in.

Although matter can not be created or destroyed, it certainly can change shape. Solids, liquids and gasses are the forms of matter that comprise our universe (although scientists have recently discovered how to create three more forms of matter: plasmas, Bose-Einstein condensates, and fermionic condensates.

## Appointments Required for Vaccines at LVHN

Lehigh Valley, Pa. (Oct. 29, 2021) – Beginning Monday, Nov. 1, Lehigh Valley Health Network (LVHN) will offer COVID-19 vaccinations, including booster shots, through appointment only. Walk-in vaccinations are no longer available at this time.

They have made this change in response to an increased demand for vaccines and booster shots, and in anticipation of the Pfizer/BioNTech vaccine receiving emergency use authorization (EUA) for children ages 5-11. Appointment-only vaccinations support the safety and experience of those receiving vaccines under our care, allowing our clinicians to adequately plan and prepare for the number of individuals expected at each location.

You can schedule an appointment for a booster dose or first dose by calling our vaccine hotline at 833-584-6283 (833-LVHN-CVD) Monday-Friday, 8:30 a.m.-5:30 p.m. or by using MyLVHN, our patient portal.
