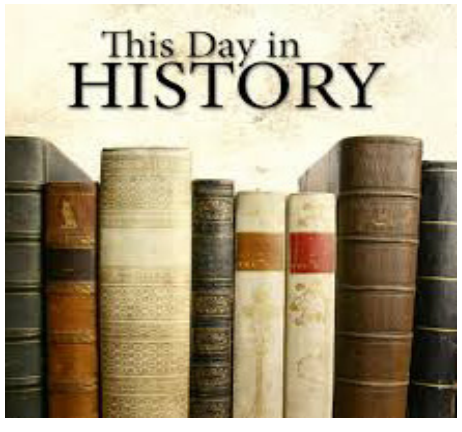
This Day In History



Edward VIII Abdicates

After ruling for less than one year, Edward VIII becomes the first English monarch to voluntarily abdicate the throne. He chose to abdicate after the British government, public, and the Church of England condemned his decision to marry the American divorcée Wallis Warfield Simpson. On the evening of December 11, he gave a radio address in which he explained, "I have found it impossible to carry on the heavy burden of responsibility and to discharge the duties of king, as I would wish to do, without the help and support of the woman I love."
