Slaters, Knights 0-3

The Notre Dame Boys won an 84-76 shootout over Bangor in a game played in Bill Pensyl gym Wednesday night.

Bangor led throughout the first half taking a 31-18 lead midway through the second quarter. When Bangor 6-4 Bangor center went to the bench with his third foul, however, the Crusaders behind some great shooting by Brendon Boyle and Logan Bickert, chipped away at the lead as Bangor took a 39-34 lead at half.

The Slaters held the lead in third period until Notre Dame went on a huge run with the aid of Sean Howlett's 17 points in the third quarter, forcing a 60-60 tie going into the final quarter. From there, Boyle and company pulled away.

Winter Storm Watch

A Winter storm watch remains in effect today through Friday morning for heavy snow with total snow accumulations of 4 to 6 inches possible.

The watch includes the Slate Belt and surrounding areas of Pennsylvania and New Jersey. Travel could be very difficult. Hazardous conditions could impact the evening commute.

Snow overspreads the area this morning and continues throughout the day and also Thursday night at varying intensity. The heaviest snow is expected this morning through early afternoon. Some sleet may mix in Thursday evening, mainly closer to the I-95 corridor. Light wintry precipitation will likely continue into the daytime hours on Friday.

State Food Assistance

Pennsylvania State officials have encouraged all Pennsylvania residents to take full advantage of all food assistance programs, if needed, over the holiday season.

"Pennsylvania's food assistance programs were built for times like these and no one should be too shy to take advantage of what they have to offer," said Russell Redding, secretary of the Pennsylvania Department of Agriculture.

But those assets haven't stopped the covid-19 pandemic from destabilizing personal finances and causing heightened food insecurity for millions of residents. Compared to 2018, when roughly 11% of adults in Pennsylvania were food insecure, Redding said 15.5% experience the issue this year.

The difference is even starker when it comes to children in the state. In 2018, 15% children experienced food insecurity. That number has climbed to 24% in 2020.

Local food pantries saw greater demand especially early in the pandemic and through the summer, with miles-long lines at each weekly distribution and millions of pounds of food provided.

"Food insecurity was a problem for millions of Americans before March 2020," said Teresa Miller, secretary of the Department of Human Services.

CDC Expands the Definition of 'Close Contact'

The Centers for Disease Control and Prevention released new guidelines on Wednesday regarding what counts as "close contact" with someone who has COVID-19.

The expanded definition includes brief but repeated exposure to others with the virus that adds up to 15 minutes over a 24-hour period. Previously, the CDC defined close contact as spending 15 consecutive minutes or more within six feet of someone with COVID-19.

This makes mask-wearing even more important for preventing transmission

GCS Bird Walk

GCS has announced that this weekend's Annual Backyard Bird Count Winter Walk – has been postponed due to the amount of snow we have received in the last week and the lack of thaw and have rescheduled the bird walk to February 27 at 11am.

The ice on their path has GCS concerned for the participants. They hope for a little warm up in the coming weeks so that they can get back out there with you.

Feel free to reach out to them with questions or suggestions for some dates this spring and summer.

County Assistance

In light of Pennsylvania's eviction moratorium expiring on August 31st, Lamont McClure reminds residents that Northampton County has approximately \$3.6 million available for rental assistance, rapid rehousing and utility payments. The Department of Human Services and the Department of Community and Economic Development worked together to develop the Community Mediation and Eviction Diversion Program (CMED). CMED offers experienced mediators, emergency financial assistance and rapid rehousing to prevent homelessness. Contact: Third Street Alliance at 610-438-1763 or email Ziana Keith at zkeith@thirdstreetalliance.org

Hotline for Human Services

Northampton County has a 24-hour Emergency hotline for all Human Services-related emergencies. Anyone struggling with a mental health crisis, abuse, neglect, suicidal thoughts, evictions, substance abuse, food insecurity, etc. can call 610-252-9060 for help and referrals.

Confidential Grief Group

A Clean Slate is partnering with [Kainoa's Ohana](#) to start their 6-week confidential grief group for parents/caretakers who have lost their child to a stigmatized death (addiction/suicide).

This has been a very powerful group that has filled a need in our area. This group caps at a small number so please pass this on to anyone who may benefit. They are looking at starting Saturday mornings in mid-October. For more information or to sign up contact jana@recoveryrevolution.org 610-599-7700.

Vaccine Scams

The FBI has warned of one of the fastest-growing frauds in the U.S. right now — scams related to the COVID-19 vaccine.

Emails or online advertisements regarding a vaccine waiting list or offers to get vaccine doses shipped directly to your home. You cannot pay money to put your name on a list to get the vaccine or get early access to the vaccine. Beware of generic greetings, grammar and spelling mistakes, or suspicious links and attachments in email messages.

Phone calls or emails from a "vaccine distribution site" or "health care provider/insurance company" asking for your personal information.

In these instances, do not provide your social security number, credit card, or bank information.

Social media posts with disinformation about the vaccine's origins and efficacy. Many times these may be accompanied with links to malware-laden websites or sites selling worthless and/or harmful products.

Heritage Center Program

The Slate Belt Heritage Center's program for February, Black History Month, will be presented by Jennie Dubin Rhodin, entitled "The African-American Experience in the Slate Belt", on Thursday, February 18, 2021. Based on her research for the upcoming SBHC publication of the same name, Ms. Rhodin will talk about the community that flourished in the Slate Belt, primarily between the 1890's and the 1970's.

Jennie graduated from NYU in 2013 and received her Master of Library Science degree with a certificate in Archives and Preservation from Queens College in 2016. She works in records management, creating records management programs and building physical and digital records repositories. She serves as Secretary on the Board of Directors for the Metro New York City chapter of ARMA, an international organization of information management and information governance professionals.

Ms. Rhodin's program will be posted on the Heritage Center's Facebook page on February 18, at Slate-Belt-Heritage-Center-SBHC. The Heritage Center is a non-profit 501©3 organization that preserves and teaches about the cultures and crafts of the Slate Belt area.

Slaters Score Impressive 53-32 Win Over Northwestern

The Bangor Boys basketball team (7-2) celebrated Senior Night with a very impressive 52-33 win over Northwestern Wednesday night in Bill Pensyl Gym.

The Slaters' CJ Miles led the way with 32 points, scoring all of his points but one, in the first three quarters.

Using a pressure man-to-man defense, Bangor made life difficult for the Tigers offense, limiting them to just 14 points at halftime.

Meanwhile, an efficient offense scored from outside and inside to take a commanding 35-14 lead at half.

Miles scored 21 points in the half on drives, shots from the perimeter and six of seven from the free throw line.

Sophomore Justin Petersen scored nine in the game, Josh Giaquinto added five, Jimmy Merklinger 4, and Gabe Zeiba 2. Miles finished with 5 threes, Petersen 1, and Giaquinto 1.

Knights lose to Nazareth

Nazareth defeated Pen Argyl Wednesday 59-15 in a game played at Pen Argyl.

The Blue Eagles grabbed a quick 22-11 by the end of the first period and coasted from there.

Matt Raggiozino scored 10 points for the Green Knights, including a pair of threes. Jillian Pysher, and Damian Tyminski added a basket each.

(l-r) Bangor Seniors, Gabe Zieba, Jace Eldridge, CJ Miles, and Caleb Ramthun were honored prior to the Slaters' Game with Northwestern last night.

Lady Slaters Win 53-26

The Bangor Girls (6-2) got back on the winning track with a 53-26 win over Northern Lehigh. The Slaters jumped out to lead of 18-9, at the end of the first quarter and gradually pulled away, outscoring the Bulldogs 29-10 in the second half.

Brynn Holland led the team with 15 points and Madison Kluska hit three from behind the arc and scored 13 points. McCormick Karaer added 8, Emma Stoudt and Emma Toth 6, and Madeline Stout 5. The Slaters had 11 turnovers to 19 by the Northern Lehigh.

Heritage Center Reopens

The Slate Belt Heritage Center has reopened for visitors for the remainder of the winter season. The Center will be open every Sunday, from 12:00- 3:00 until the beginning of April.

Their monthly presentations will continue to be posted on our Facebook page, Slate-Belt-Heritage-Center-SBHC. Their next presentation will be by Cullen King, entitled "Their Past, Our Future: Why our History Should Provide Hope Today." Cullen grew up in Pen Argyl, and attended the College of Wooster and the University of Michigan, focusing on Library and Archival Work. He served as an intern at the Slate Belt Heritage Center during the summer of 2020. He will speak about the insights he gained as an intern about the importance of history, and discuss the website that he created for the Center.

The presentation will be posted on the Center's Facebook page on Thursday, January 21st. All past programs are archived on the Facebook page as well. Please check out this interesting view of history and their place in it. The Slate Belt Heritage Center is a 501©3 organization, concerned with the preservation and teaching about the culture and artifacts of the various groups that settled in the Slate Belt.

St. Luke's Plan for Vaccinating Communities

St. Luke's has engaged in extensive preparations to expand COVID-19 vaccination access to the general population in a smooth, orderly and safe fashion.

St. Luke's thus far has concentrated its vaccination efforts on Phase 1a priority groups. As they prepare for the state to move into the next phase as announced today, St. Luke's has developed a process to allow individuals to sign-up for notifications regarding the vaccine.

"We are proceeding in a thoughtful, orderly and safe way," says Jeffrey Jahre, MD, St. Luke's Senior VPMA regarding the Department of Health's announcement today. "As per the state, we are opening scheduling to individuals age 65+ and those with medical conditions. To avoid lines and chaos, we are prioritizing individuals at the highest risk starting with individuals 75+ and rapidly working down the list as we have supplies.

We anticipate that with increased supplies in manufacturing and the addition of other vaccines, like Johnson & Johnson's, that there will be rapid increase in our ability to accommodate the entire population."

As of today, anyone can pre-register for vaccination through the St. Luke's MyChart portal at www.sluhn.org/vaccine. Those who do not have a MyChart account may create one.

Alternatively, individuals who are currently eligible to receive the vaccine (health care providers, nursing home staff and first responders) may call, 1-866-STLUKES (785-8537), option 7.

After completing a brief questionnaire, MyChart users will be notified when it is their turn to schedule an appointment for the vaccine, which they will be able to do online.

If accessing MyChart via the St. Luke's mobile app, users can find the COVID-19 Vaccine pre-registration under "Questionnaires à Optional Questionnaires."

Questions related to MyChart can found here or by calling 1-866-STLUKES (785-8537), option 5.

LVHN COVID-19 Vaccination

If you are age 75 or older, or people age 65 and older as well as people ages 16-64 with serious medical conditions, you can receive a COVID-19 vaccination. Schedule your appointment today to get vaccinated at LVHN's first drive-through COVID-19 vaccination clinic at Dorney Park in Allentown Jan. 27, 8 a.m. to 4 p.m.

An appointment is required at this and all of LVHN's vaccination locations. The vaccination is free.

Making an appointment is easy.

Step 1: Sign in to MyLVHN

Make sure your account settings are correct (Log in and click "Menu," "Account Settings," and then edit).

Step 2: Make an appointment

When you are logged in to MyLVHN, you will see a notification that you have a COVID-19 vaccine to schedule. To set up your appointment, press "Schedule Now."

Press "Schedule now" to schedule your first dose of the COVID-19 Vaccine

While MyLVHN is the fastest, easiest way to schedule an appointment, another option is to call 833-LVHN-CVD (833-584-6283). The ability to schedule an appointment is dependent upon the supply of available vaccine at LVHN, which is determined by the State of Pennsylvania.

Coronavirus Variant May Spread 70% Faster

Just as vaccines begin to offer hope for a path out of the pandemic, officials in Britain this past weekend sounded an urgent alarm about what they called a highly contagious new variant of the coronavirus circulating in England.

Citing the rapid spread of the virus through London and surrounding areas, Prime Minister Boris Johnson imposed the country's most stringent lockdown since March.

But the estimate of greater transmissibility — British officials said the variant was as much as 70 percent more transmissible — is based on modeling and has not been confirmed in lab experiments, Dr. Cevik added.

Several experts urged caution, saying it would take years — not months — for the virus to evolve enough to render the current vaccines impotent.

“No one should worry that there is going to be a

single catastrophic mutation that suddenly renders all immunity and antibodies useless,” Dr. Bloom said.

“It is going to be a process that occurs over the time scale of multiple years and requires the accumulation of multiple viral mutations,” he added. “It’s not going to be like an on-off switch.”

The scientific nuance mattered little to Britain's neighbors. Worried by the potential influx of travelers carrying the variant, the Netherlands said it would suspend flights from Britain from Sunday until Jan. 1.

How to Talk About Terrorism With Kids

Murphy Moroney, MSN

Watching an angry mob storm the Capitol building in response to Trump losing a second term was incredibly disturbing.

While the destruction was hard enough to witness as an adult, many parents worry about how their kids will process such a dark event in US history. As an act of domestic terrorism that was incited by a sitting President, speaking with children about what happened is important.

Although parents might be hesitant to bring up the insurrection with young children, preschool-aged kids can digest a basic understanding of what happened, particularly if they saw images or video footage on TV.

How Do You Explain What Transpired at the Capitol Building to Kids?

Before diving into a serious conversation about the attack on the Capitol, Reena B. Patel, a parenting expert and educational psychologist, urges parents to create a safe space for kids of all ages by allowing them to ask questions and not forcing them to talk about the topic until they're ready.

She also emphasized the importance of listening to get kids' perspectives and using the word "sometimes" when talking about the event to remind children that not everyone acts in this manner.

What's the Best Way to Teach Kids About Patriotism?
 "The best way is to discuss what patriotism is not. It is not using hate to make your opinion heard, harming others, or bullying others to change their views,"

Tips to avoid getting and spreading COVID-19

In public:

Wear a mask in public settings, including on public transportation and in transportation hubs such as airports and stations. Stay at least 6 feet (about 2 arms' length) from anyone who is not from your household.

Bathrooms and rest stops:

Wash your hands with soap and water for at least 20 seconds after using the bathroom and after you have been in a public place. If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry.

Getting gas:

Use disinfecting wipes on handles and buttons at the gas pumps before you touch them (if available).

After fueling, use a hand sanitizer with at least 60% alcohol. When you get to your destination, wash your hands with soap and water for at least 20 seconds.

Takeout Food Tips

Getting takeout from your favorite restaurant for dinner? Use these tips to stay safe:

- Mobile phone order + pay online or by phone
- Accept take-out without in-person contact
- Stay 6 feet away from others
- Soap wash your hands after pickup

Unwanted Med Disposal

Residents are urged to remove expired, unwanted, or unused medicines from the home to reduce the chance of accidents or misuse and to prevent the drugs from entering the environment.

Most municipal buildings in Northampton County, including the Courthouse at 669 Washington St. in Easton, offer collection boxes for unused prescription medication.

Grants Save Money and Reduce Pollution

Harrisburg, PA – Grant funding for energy efficiency and pollution prevention projects for small business owners and farmers is still available from the Pennsylvania Department of Environmental Protection (DEP) through the Small Business Advantage Grant program.

“This grant program was created with small businesses and farmers in mind. There are tremendous monetary savings available to Pennsylvania’s small business owners by installing energy-efficient equipment, such as boilers, LED lighting, and Energy Star certified heating, ventilation, and air conditioning systems,” said DEP Secretary Patrick McDonnell. “Pennsylvania farmers can also benefit by using these funds to undertake projects which will divert sediment and nutrient runoff from our waterways.”

Pennsylvania farmers and other small business owners with 100 or fewer full-time employees are eligible for the grants. Projects must save the business a minimum of \$500 and 25 percent annually in energy consumption or pollution related expenses. Natural resource protection projects are exempt from the minimums; however, the projects must be able to quantify sediment and nutrient reductions into nearby waterways.

Businesses can apply for 50 percent matching funds for equipment or materials, up to \$7,000, when adopting energy-efficient or pollution prevention equipment or processes. Applications are considered on a first come, first served basis, and will be accepted until fiscal year 2020-21 funds are exhausted, or Monday, April 12, 2021, whichever occurs first.

The complete grant application package is available by visiting the DEP Small Business Ombudsman’s Office’s site.

To contact the Small Business Ombudsman’s Office, call 717-772-5160 or email raepadvantagegrant@dep.state.pa.us

316 Marketplace in Wind Gap Has Something For Everyone

The new Marketplace 316 in Wind Gap is impressive. It offers a place for Local Antiques and Collectables, Artisans, Resellers & Foods, only found in Wind Gap.

J's Royal Family, Unique Finds, Flay'd Meats, Candy Pickers, and Uncle Chuck's & Son's Furniture are just few of many vendors.

Despite the COVID 19 pandemic, Marketplace 316 opened July 4th to the delight of avid flea marketers.

The North Broadway location is a huge improvement over the former Wind Gap Flea Market. The new Flea Market appears to be twice the size it was a few years ago, allowing far more vendors to set up shop.

Although I'm not a weekend, flea market junkie, I occasionally enjoy going to Saylorsburg, Jake's on Route 100, Adamstown, PA and a place in Front Royal, Va. I'm happy to say that I am definitely adding Marketplace 316 to my list of favorites.

They are open Saturdays and Sundays from 8am to 4pm at 316 North Broadway, Wind Gap. Visit their website at www.marketplace-316.com.

Commercial Lease Program

Slate Belt Rising, a program of Community Action Committee of the Lehigh Valley (CACLV), is introducing a Commercial Lease Subsidy Program to attract new and expanding businesses to the Boroughs of Bangor, Pen Argyl, Portland, and Wind Gap.

This program will provide businesses the support they need to get off the ground, helping to build more vibrant downtown areas that attract more businesses and the talent needed to build a competitive economy, thus creating a stronger and more resilient community.

"This will serve as an incentive for new businesses to open or other businesses to expand in the Boroughs of Bangor, Pen Argyl, Portland, and Wind Gap," said Stephen Reider, Director of Slate Belt Rising. "Our goals are to lower commercial vacancy rates, provide economic opportunity and create more vibrant business districts that are welcoming for residents and visitors alike."

The program will provide financial support to a minimum of five businesses during their first six months of operation. Selected businesses will receive 100% of rent payments (up to \$1,500 monthly) for their first three months and 50% of rent payments (up to \$750 monthly) for their next three months. The lease payments will be made for six consecutive months.

Slate Belt Rising anticipates that this will advance the economic viability of the Slate Belt through business development, job creation, and promotion of Slate Belt small businesses within and outside the community.

Any new business opening or moving into one of the boroughs or an existing business looking to open a second location within one of the boroughs may be eligible for the program. Applicants must be planning to lease between 500-5,000 square feet of first floor, market-rate office or retail space for a minimum 2-year term.

Applications are currently open and being accepted until February 12, 2021. For full guidelines and application, visit slatebeltrising.org.

Vaccine's Period of Protection Uncertain

Director of the National Institute of Allergy and Infectious Diseases Dr Anthony Fauci said that at this stage there is not enough data to determine how long the protection offered by the Moderna or the Pfizer/BioNTech COVID-19 vaccines will last.

CEO of BioNTech Uğur Şahin also said he is optimistic the immunization effect of the vaccine would last for a year, but they won't know for sure until July 2021 because the data available at this time only dates back to July 2020, when they started their trial.

What you need to know

- There isn't enough data at this time to determine how long each vaccine will protect people
- BioNTech's CEO said trial patients need to be monitored for a full year to measure the long-term effectiveness of the vaccine
- The efficacy rate of vaccines is a measurement of how effective they are under ideal circumstances
- Although the vaccines protect people from COVID-19, experts don't yet know if it will prevent someone spreading the virus, so other precautions, such as masks, will still be important

Home Heating Assistance

LIHEAP is a federally funded program that helps individuals and families pay their heating bills through home heating energy assistance grants. It also provides crisis grants to help in the event of an emergency or if a resident is in danger of losing his or her heat due to broken equipment, lack of fuel or termination of utility service.

The income eligibility guidelines for LIHEAP are set at 150% of the federal poverty income level. For example, the income limit for an individual is \$18,735; for a couple, the limit is \$25,365; and for a family of four, it is \$38,625. Residents may apply for LIHEAP online or by contacting the County Assistance Office in their county of residence.

Animals and COVID 19

A small number of pets worldwide, including cats and dogs, have been infected with the virus that causes COVID-19, mostly after close contact with people with COVID-19.

Based on the limited information available to date, the risk of animals spreading COVID-19 to people is considered to be low.

Because there is a risk that people with COVID-19 could spread the virus to animals, CDC recommends that pet owners limit their pet's interaction with people outside their household.

- Keep cats indoors when possible and do not let them roam freely outside.
- Walk dogs on a leash at least 6 feet (2 meters) away from others.
- Avoid public places where a large number of people gather.
- Do not put a mask on pets. Masks could harm your pet.

There is no evidence that the virus can spread to people from the skin, fur, or hair of pets. Do not wipe or bathe your pet with chemical disinfectants, alcohol, hydrogen peroxide, or other products, such as hand sanitizer, counter-cleaning wipes, or other industrial or surface cleaners. Talk to your veterinarian if you have questions about appropriate products for bathing or cleaning your pet

Can You Get Flu & COVID Vaccines Simultaneously?

No, according to the CDC. You should not get a COVID-19 vaccine and a flu vaccine at the same time. COVID-19 vaccines should be given alone with at least 14 days either before or after you get any other vaccines, including a flu vaccine. This is because there is currently limited information on the safety and effectiveness of getting other vaccines at the same time as a COVID-19 vaccine.

As more information becomes available, this recommendation may change. Your healthcare provider can help you decide the best vaccination schedule for you and your family

Fact COVID-19 vaccines will not give you COVID-19

None of the COVID-19 vaccines currently in development or in use in the United States, contain the live virus that causes COVID-19. There are several different types of vaccines in development. However, the goal for each of them is to teach our immune systems how to recognize and fight the virus that causes COVID-19. Sometimes this process can cause symptoms, such as fever. These symptoms are normal and are a sign that the body is building immunity. Learn more about how COVID-19 vaccines work.

It typically takes a few weeks for the body to build

immunity after vaccination. That means it's possible a person could be infected with the virus that causes COVID-19 just before or just after vaccination and get sick. This is because the vaccine has not had enough time to provide protection.

FACT: COVID-19 vaccines will not cause you to test positive on COVID-19 viral tests

Neither the recently authorized and recommended vaccines nor the other COVID-19 vaccines currently in clinical trials in the United States cause you to test positive on viral tests, which are used to see if you have a current infection.

How Vaccine Recipients Felt After COVID-19

Lehigh Valley, Pa. (Dec. 22, 2020) - Wondering how it feels the day after a COVID-19 vaccine? Since Thursday, Lehigh Valley Health Network has administered more than 1,000 vaccinations to front-line, high-risk workers and plans to vaccinate about 6,000 more in the coming days.

Of those who received a vaccination, only three people reported side effects – one person had redness and swelling at the injection site, one had an itchy throat and the other had a fever. Symptoms for each person subsided quickly. Of the colleagues who had known severe allergies, no side effects were reported.

“Except for a sore arm at the injection site, much like how I felt when I got the flu shot, it is business as usual today,” said Jennifer Rovella, DO, LVPG Pulmonary and Critical Care Medicine. “I feel great knowing that this is the beginning to the end of the pandemic.”

Chantal Branco, RN, LVHN Patient Care Services, the first person in the region and at LVHN to receive the Pfizer authorized vaccine had a similar reaction. “I’m feeling great today. My left arm is a little sore but nothing that is keeping me from my normal daily activities.”

Glenn Thompson, RN, LVHN Emergency Services, said that getting the shot didn’t limit him in any way. “About 24 hours after getting the vaccine, I have no issues besides a slightly sore arm at the injection site.”

Marcelo Gareca, MD, LVPG Infectious Diseases, even went a bit further in describing that he was not impacted by the vaccine.

“I am feeling fine. My arm is no sorer than when I get the flu shot. It did not stop me from doing yoga at home last night, working yesterday and today, or shoveling snow this morning.”

The U.S. Food and Drug Administration says that the most commonly reported side effects are pain at the injection site, tiredness, headache, muscle pain, chills, joint pain and fever. It’s important to remember that even if you do experience some of these mild symptoms, they usually go away within a day or two and the symptoms are far milder than what most people experience when they are sick with COVID-19. Medical officials say the vaccine cannot cause a COVID-19 infection.

While the shot itself cannot make you contagious, it is important for everyone to continue wearing a face mask. Officials say it is unclear at this point if the vaccine prevents people from becoming infected with COVID-19 or if it prevents feeling sick when infected. That means you could still transmit virus after you’ve received your shot.
