during pathogen outbreaks is an altruistic act serving not only as a form of enhanced cough or sneeze etiquette, but also to reduce the aerosols emitted from normal breathing or when talking. Talking and Breathing May Spread The virus

People resistant to social distancing may reconsider that thought after a prestigious scientific panel told the White House Wednesday night that research shows the coronavirus can be spread not just by sneezes or coughs, but also just by talking, or possibly even just breathing.

“While the current [coronavirus] specific research is limited, the results of available studies are consistent with aerosolization of virus from normal breathing,” according to the letter, written by Dr. Harvey Fineberg, chairman of a committee with the National Academy

of Sciences.

Fineberg said that he will start wearing a mask when he goes to the grocery store.

Several other experts are now talking about wearing masks every time you interact with the public during essential visits to places like your local grocery store or pharmacy.

Considering that people with no coronavirus symptoms at all can carry the virus, a simple conversation with someone like that could spread the virus to you if you are less than six feet apart.

You will be decorated within a few days of placing your order through JCC Screenprinting. The website will be up and running in the next few days. Online ordering will be running through the summer months. Memorial Day is this weekend. June 14th is flag day. The Fourth of July. And don't forget Labor Day in September.

You can show your appreciation in this way by either displaying in your own yard or ordering for someone else's yard to say thanks.

Your \$50 contribution to WTVFC will include one dozen American flags and also a double sided thank you sign with our logo that you keep.

Weona Park Book

A Centennial book is being written to commemorate the 100th Anniversary of Weona Park in Pen Argyl.

Anyone with fond memories or interesting stories should send them to Walt Cole at wrcole3@gmail.com. This would include any information from your parents or grandparents. Perhaps a grandparent or great-grandparent helped to build the park, or worked on a WPA project during the Depression. Perhaps you worked at the park, were a life guard or had an interesting experience.

Stories about sporting events, swimming, or any activities would be of interest. They are also interested in pictures of family reunions, church gatherings or other organizations having picnics at the park. They are also looking for pictures of the clay tennis courts, the old miniature golf course, the band shell and events at the athletic field. Please check out those old photo albums for memories to share.

Celtic Cultural Scholarships

The Celtic Cultural Alliance (CCA) has announced that several scholarships will be awarded this year to students pursuing the study of Celtic dance, music, or art.

Please contact Marcie Mulligan, mmulligan@celticfest.org, for information related to either scholarship.

For more details about the scholarship programs and to download the applications, visit their webpage at the Celtic Classic which runs from September 25 through September 27, in downtown historic Bethlehem.

Don't Just Push Germs Around, Eliminate Them

Many cleaning tools give the impression that they are killing germs and cleaning your home when in reality they are simply spreading germs to other more hidden areas of your home. The only way to avoid this is by sanitizing these cleaning tools, such as mops, dusters, and dishrags between uses or they will continue to spread bacteria around your house. This issue often goes unnoticed, as some of the most sparkling clean homes can be saturated with bacteria while other

How to clean your phone

First and foremost, you will want to consult the website for the manufacturer of your phone or carrying case for any specific instructions that they might have in order to avoid damaging your device or case.

Many manufacturers, including Apple, have provided recommendations due to the COVID-19 pandemic.

While specific instructions may vary depending on your device, Apple advises the following :

- **Use only a soft, lint-free cloth.**
- **Avoid excessive wiping.**
- **Unplug all power sources, devices, and cables.**
- **Keep liquids away from your device.**
- **Don't allow moisture to get into any openings.**
- **Avoid aerosol sprays, bleaches, and abrasives.**
- **Avoid spraying cleaners directly onto your device.**
- **Apple is recommending the use of 70 percent isopropyl alcohol wipes or Clorox Disinfecting Wipes to wipe down any hard, nonporous surfaces.**

However, they say you should avoid using them on leather or fabric to prevent damage. According to Dr. Donald W. Schaffner, extension specialist in food science and distinguished professor at Rutgers University, these are "fairly gentle disinfectants."

However, you should avoid using chlorine bleach, according to Schaffner. This could damage your phone. Westenberg further suggested that keeping your phone in a sealed case will make it easier to wipe it down with disinfectant wipes.
