Yellow Phase Coming June 5

June 5 is likely the day that Lehigh & Northampton Co. and the Slate Belt will turn from the Pennsylvania Red Phase to Yellow.

There will be fewer restrictions but we must continue social distancing and wear masks in public. More businesses can reopen with safety guidelines.

Under the Wolf administration's reopening plan, the yellow phase means most but not all businesses can reopen, limitations on public gatherings remain, and restaurants and bars remain closed to in-person business. Gyms, salons, malls, and movie theaters also remain closed

Reopened businesses are encouraged to let people work from home as much as possible. And if a business has been operating remotely, they are supposed to continue working remotely in the yellow phase.

Retail stores are allowed to reopen but are still supposed to focus on delivery and curbside pickup as much as possible. Day camps are allowed to operate. Schools will still be closed for in-person instruction.

Let Washington Township Fire Co. Decorate Your Yard

Washington Twp Vol Fire Co would like to decorate your yard with some patriotism and thanks to all our local essential workers, front liners and volunteers serving during this pandemic.

They are doing this as a 'no contact' fundraiser for their fire company. They have had to postpone and cancel some of their popular fundraiser events due to the COVID and this will help them tremendously while uplifting spirits in our communities.

You will be decorated within a few days of placing your order through JCC Screenprinting. The website will be up and running in the next few days. Online ordering will be running through the summer months. Memorial Day is this weekend. June 14th is flag day. The Fourth of July. And don't forget Labor Day in September.

You can show your appreciation in this way by either displaying in your own yard or ordering for someone else's yard to say thanks.

Your \$50 contribution to WTVFC will include one dozen American flags and also a double sided thank you sign with our logo that you keep.

Test Site Open Until June 5

The Northampton County sponsored Covid-19 drive-thru testing site at Easton Hospital will remain open until June 5th

. Hours of operation are Monday through Friday, from 10:00AM –4:00PM. The site will be closed on Memorial Day, May 25th

The testing site is located in the main parking lot at Easton Hospital, 250 S 21st Street, Easton, PA 18042 and the tests are free. The risk of viral transmission at a drive-thru site is much lower than at a walk-in clinic.

"Since it opened on May 6th, 586 Northampton County residents have received a test for Covid19," says Lamont McClure. "Determining how prevalent the virus is in our community is the key to reopening our economy."

Only residents from Northampton County will be accepted for testing and they must show at least one of the following CDC recognized symptoms of Covid-19 to be eligible: fever, dry cough, shortness of breath, chills, muscle pain, headache, sore throat or loss of taste and/or smell.

A prescription from a doctor is not required. Although insurance is not required to be tested participants should bring a photo ID and their insurance card, if they have one, with them.

How Long Can You Park Without Driving?

Courtesy Robin Tinsley Sabatino Insurance

Sometimes life can be unpredictable. And you may find yourself in a situation where your car — which used to take you back and forth to work every day — is left sitting in the garage.

Whether you're working from home, following social distancing guidelines or storing your convertible for the winter, parking a car for long periods of time can take a toll on your vehicle.

The result? You may have trouble getting your car started when it's time for your next drive.

But with the proper preparation, it's possible to let your car sit for months (or even years) with no issues at all. Here's everything you need to know to get your car ready for long-term storage.

When you won't be driving your vehicle, it may be tempting to save some money by dropping auto insurance. However, removing your auto insurance can leave your car vulnerable in the event of a fire, the other damage that would be covered by comprehensive insurance.

Fortunately, your ERIE auto policy comes with your very own local insurance agent who can help you understand your options and select the amount of coverage that works for you.

Additionally, a lapse in coverage may make insurance more expensive when you decide to insure the vehicle again. Looking for ways to save? Learn more about Sometimes life can be unpredictable. Fuel: Did you know that gasoline can go bad? When it's not in an airtight container, fuel reacts with oxygen, which causes it to degrade. This process begins after about 30 days.

Rust: Rust is another byproduct of oxidation — and it's highly dependent on the environment where your vehicle is parked.

Belts and Hoses: As rubber components age, they can start to dry out and crack.

Pests: For that mouse in your garage, a parked car can become a ready-made home.

How Do I Prepare My Car For Storage?

We've looked at the damage that can be done if you let your car sit without any preparation. But luckily, a little prevention is all it takes to protect your vehicle

Columcille Megalith Park

Spring has fully arrived at Columcille Megalith Park, the grass is turning green, dogwoods are budding, daffodils are in bloom, the fish have surfaced, and the peace and beauty of the land offer a respite from the pandemic.

They decided early to keep the park open for individual visitors, though they have closed Casa Colum and the Voyagers' Lounge, have cancelled all group events and activities, and they insist that guests at the park practice "physical distancing."

The site coordinator and caretaker, Jill Chunko, has worked tirelessly to keep the park beautiful, welcoming, and safe.

The Infinity Gate is both literally and figuratively open. You don't even need to touch the gate to enter.

For those in the Columcille community who are unable to come to the park, the Infinity Gate is open virtually. They are working hard to increase their presence on social media—posting photos, short films, inspirational readings, and they soon will be hosting virtual tours of the park.

At this critical time, we ask present and past members to please send their 2020 membership donations as soon as possible, we ask friends of Columcille to become members if you can, and we welcome donations of any amount from those of you who love the park but don't feel the time is right to be members.

You'll see that this year we have added a new student membership for only \$25. We are grateful for every donation; anything you can give will help keep the park open this year.

Test Site Open Until June 5

Talking and Breathing May Spread The virus

People resistant to social distancing may reconsider that thought after a prestigious scientific panel told the White House Wednesday night that research shows the coronavirus can be spread not just by sneezes or coughs, but also just by talking, or possibly even just breathing.

"While the current [coronavirus] specific research is limited, the results of available studies are consistent with aerosolization of virus from normal breathing," according to the letter, written by Dr. Harvey Fineberg, chairman of a committee with the National Academy

of Sciences.

Fineberg said that he will start wearing a mask when he goes to the grocery store.

Several other experts are now talking about wearing masks every time you interact with the public during essential visits to places like your local grocery store or pharmacy.

Considering that people with no coronavirus symptoms at all can carry the virus, a simple conversation with someone like that could spread the virus to you if you are less than six feet apart.

MASK WEARING TIPS

DO:

- ✓ Wear a mask when you leave home
- ✓ Make sure it covers your nose and mouth
- ✓ Be sure that you can breathe through it
- ✓ Continue practicing social distancing

DON'T:

- ✗ Touch mask while wearing it
- ✗ Touch the front of mask when removing it
- ✗ Use on children under 2
- ✗ Wear if you have trouble breathing

Avoiding Foggy Glasses for Mask Users

1. **Adjust the ties** or the ear loops so the mask fits snugly against your face. If the air is going out the top, you don't have your mask on correctly. Most of your breath should be going through the mask. If you feel the air going in or out around the mask, tighten the ties.

2. **Athletic tape** is also a possibility, however, if you wear the same mask day after day, the tape may harm the mask.

3. **Soapy water.** A British surgeon published a paper in 2011 showing that washing your glasses with soapy water and letting them air dry can help. Soap acts as a surfactant — which stands for surface active agent — and the soapy water leaves behind a thin film that stops the water molecules from forming droplets that lead to fog.

4. **You can buy commercial anti-fogging wipes** and sprays, but it could get expensive. One brand, FogTech Dx, sells on Amazon for \$30 for 20 wipes — or about \$1.50 per wipe. One treatment is supposed to last for three to five days

Wipe and sprays may be difficult to buy right now. Some sites we went to suggested you that they are on back order. Other sources say it may 2-4 weeks to get them online. However, if you know someone who is an avid swimmer he or she may have some.

Home Heating Assistance

LIHEAP is a federally funded program that helps individuals and families pay their heating bills through home heating energy assistance grants. It also provides crisis grants to help in the event of an emergency or if a resident is in danger of losing his or her heat due to broken equipment, lack of fuel or termination of utility service.

The income eligibility guidelines for LIHEAP are set at 150% of the federal poverty income level. For example, the income limit for an individual is \$18,735; for a couple, the limit is \$25,365; and for a family of four, it is \$38,625.

Residents may apply for LIHEAP online or by contacting the County Assistance Office in their county of residence.
