Grand Central Supports Illegal Dumpsite Cleanup

Plainfield Twp., Pa., - Waste Management's Grand Central Landfill will support the Pennsylvania Department of Environmental Protection's (DEP) cleanup of an illegal dumpsite in Bethlehem Twp. and Freemansburg, Northampton County, through the department's Community Environmental Project (CEP) initiative.

DEP has been working to clear illegally dumped construction and demolition debris from the Michael Stine/MS Recycling Construction and Demolition waste pile on the Barnsdale Associates property at 1600 Freemansburg Road. Grand Central will provide disposal services for about 1,000 tons of material that will be removed from the site.

The landfill and its operators agreed to participate in the project in lieu of being assessed a civil penalty for notices of violations issued by the department in 2018. The violations cited by DEP included alleged offsite odors that resulted from far-above-normal rainfall and weather-related construction delays at Grand Central, and from conditions observed during facility inspections.

Paynter, a graduate of Bangor High School, served in the Navy from 1967–69, and has spent many years studying the events on “the day that will live in infamy.”

Paynter will be sharing stories from people who were there the day of the attack, showing pictures of the ships that were at Pearl Harbor at the time of the attack, as well as other presenting other artifacts and displays. It promises to be an interesting and informative talk about the day that led the United States to enter World War II. Facebook page address is Slate-Belt-Heritage-Center-SBHC.

CLEANUP continued from page one

The conditions observed during the facility inspections have been corrected and the agreement closes the violations.

“Two years ago, the area received more than 72 inches of rain,” Grand Central Manager Joe Statile said. “Average rainfall in the Slate Belt is 48 inches. The abnormally high rainfall increased the amount of landfill gas naturally produced in our landfill and delayed the expansion of our landfill gas collection system.

“Despite our best efforts, these conditions inconvenienced our neighbors and resulted in the DEP notices,” Mr. Statile said. “We’ve made many adjustments to make sure we do not have a repeat of this situation.”

Mr. Statile said that instead of conducting annual gas collection expansion projects, the work now is conducted twice a year. The landfill also has increased the number of contractors certified to handle this specialized construction work.

“We’re proud of the changes we’ve made and our operating record since 2018 and know that our neighbors have noticed the improvement,” said Mr. Statile. He noted that the landfill’s systems performed well when Tropical Storm Isaias brought more than seven inches of rain to the site on Aug. 3.

“We’re also thankful for the opportunity to support DEP’s clean-up of the MS Recycling site through the CEP,” Mr. Statile said.

The property where the cleanup will take place is owned by Barnsdale Associates, LLC, 221 Langhorne Ave., Bethlehem.

CDC Expands the Definition of ‘Close Contact’

The Centers for Disease Control and Prevention released new guidelines on Wednesday regarding what counts as “close contact” with someone who has COVID-19.

The expanded definition includes brief but repeated exposure to others with the virus that adds up to 15 minutes over a 24-hour period. Previously, the CDC defined close contact as spending 15 consecutive minutes or more within six feet of someone with COVID-19.

Grants Save Money and Reduce Pollution

Harrisburg, PA – Grant funding for energy efficiency and pollution prevention projects for small business owners and farmers is still available from the Pennsylvania Department of Environmental Protection (DEP) through the Small Business Advantage Grant program.

“This grant program was created with small businesses and farmers in mind. There are tremendous monetary savings available to Pennsylvania’s small business owners by installing energy-efficient equipment, such as boilers, LED lighting, and Energy Star certified heating, ventilation, and air conditioning systems,” said DEP Secretary Patrick McDonnell. “Pennsylvania farmers can also benefit by using these funds to undertake projects which will divert sediment and nutrient runoff from our waterways.”

Pennsylvania farmers and other small business owners with 100 or fewer full-time employees are eligible for the grants. Projects must save the business a minimum of \$500 and 25 percent annually in energy consumption or pollution related expenses. Natural resource protection projects are exempt from the minimums; however, the projects must be able to quantify sediment and nutrient reductions into nearby waterways.

Businesses can apply for 50 percent matching funds for equipment or materials, up to \$7,000, when adopting energy-efficient or pollution prevention equipment or processes. Applications are considered on a first come, first served basis, and will be accepted until fiscal year 2020-21 funds are exhausted, or Monday, April 12, 2021, whichever occurs first.

The complete grant application package is available by visiting the DEP Small Business Ombudsman’s Office’s site.

To contact the Small Business Ombudsman’s Office, call 717-772-5160 or email raepadvantagegrant@pa.gov.

From the softly glowing lantern light and luminaries to complimentary hot chocolate and cookies, Old Time Christmas is sure to become a favorite holiday pastime for many years to come.

Gather around a bonfire while you wait for your visit to the 1800s to begin. Guides in period clothing will lead guests on their

journey into the past beginning with a glimpse at a Victorian era Christmas and their Christmas Putz, a homemade nativity and village scene.

The living Nativity, located in the barnyard, includes the Quiet Valley farm animals and offers a look at the foundation of this special celebration and includes a soloist and scripture readings. Experience a rustic Christmas of the early 1800s in the upper barn. At the one room schoolhouse the school marm leads both the musicians and guests in singing their favorite seasonal carols. There is plenty of nervous excitement as folks await a visit from the Belschnikel, a traditional Pennsylvania German character who made his rounds during the Christmas season. He is the one who really knows if you were naughty or nice.

Senate Bills Strengthen PA.Mental Health Coverage

The State Senate approved legislation to ensure that mental health and substance use disorders receive the same level of care as other health issues, according to Senator Mario Scavella (R-40).

House Bill 1696 and House Bill 1439 would strengthen enforcement of the federal Mental Health Parity and Addiction Equity Act of 2008 by ensuring insurance plans provide mental health care that is similar to coverage for other diseases and illnesses. The bills also require insurers annually attest to steps they have taken to comply with the law.

The current system of enforcement relies on addressing complaints from consumers who may not know about the law or fully understand the services that are included in their health plan. The package of bills would ensure all insurers offer customers the level of care and services that are required by law.

“This legislation solidifies the Insurance Department’s role in regulating insurer compliance with mental health parity and requires insurers to legally attest to compliance efforts and makes certain public disclosures of those efforts. It’s a second layer of accountability,” Scavella said. “Together, these bills will establish Pennsylvania as a leader in the regulation of insurer compliance with federal mental health parity.”

The measures will be sent to the governor to be signed into law.
